

MONDAY, FEBRUARY 10, 1834.

## CONGRESS.

Tuesday Feb. 4.—Message from the President to both Houses of Congress.

The following Message from the President of the United States was received by Mr. Donnellson, his private Secretary:—

To the Senate and House of Representatives:—

I deem it my duty to communicate to Congress the recent conduct of the Bank of the United States, in refusing to deliver the books, papers, and funds, in its possession, relating to the execution of the act of Congress of June 7th, 1832, entitled, an act supplementary to the "Act for the relief of certain surviving Officers and Soldiers of the Revolution." The correspondence reported by the Secretary of War, and herewith transmitted, will show the grounds assumed by the Bank to justify its refusal to make the transfer directed by the War Department. It does not profess to claim the privilege of this agency as a right secured to it by contract, nor as a benefit conferred by the Government, but as a burden from which it is willing to be relieved. It places its refusal upon the extraordinary ground that the corporation has a right to sit in judgment upon the legality of the acts of the constituted authorities, in a matter in which the Stockholders are admitted to have no interest, and it impedes and defeats, as far as its power will permit, the execution of the measures of the Administration, because the opinion of the corporation, upon the construction of an act of Congress, differs from that of the proper officers of the United States.

The claim of this Corporation, thus to usurp the functions of the judicial power, and to prescribe to the Executive Department the manner in which it shall execute the trust confided to it by law, is without example in the history of our country. If the acts of the public servants, who are responsible to the people for the manner in which they execute their duty, may thus be checked and controlled by an irresponsible money corporation, then, indeed, the whole frame of our Government is changed, and we have established a power in the Bank of the United States, above what we derive from the people.

It will be seen, from the accompanying statement, marked A, that according to the latest accounts received at the War Department, the Bank of the United States and its Branches have in their possession near about half a million of the public money, received by them under the law of 1832, which they have not yet accounted for, and which they refuse to pay over to the proper agents, for the use of those persons for whose benefit it was withdrawn from the Treasury. It is to be regretted that this attempt on the part of the Bank to guide and direct the Executive upon the construction and execution of an act of Congress should have been put forward and insisted on in a case where the immediate sufferers from their conduct will be the surviving veterans of the Revolutionary war, for this evil falls exclusively upon the gallant defenders of their country, and delays and embarrasses the payment of the debt which the gratitude of the nation has awarded them, and which in many instances, is necessary for their subsistence and comfort in their declining years.

The character of the claim set up by the Bank and the interest of the parties to be immediately affected by it, make it my duty to submit the whole subject to the consideration of Congress: and I leave it to their wisdom to adopt such measures as the honor of the Government and the just claims of the individuals injured by the proceedings, may be deemed to require.

Having called for the opinion of the Attorney General on this occasion, with a view to a thorough investigation of the question which has thus been presented for my consideration, I enclose a copy of the report of that officer, and add my entire concurrence in the views he has taken. ANDREW JACKSON.

February 4, 1834.

After a slight debate in the Senate the Message was referred to the Judiciary Committee. Mr. Frelinghuysen resumed and concluded his speech, after which the whole subject of the deposits was referred to the Committee on Finance, on motion of Mr. Webster, who pledged himself to make his report to-morrow on the subject. The Senate retained Mr. Clay's first resolution, and Mr. Wilkins has the floor to-morrow.

In the House, Mr. Hubbard first got the floor and moved the reference of the Message to the Committee of Ways and Means. Mr. Watmough moved its reference to the Committee on the Judiciary. The debate raged, without cessation, for five hours upon these motions. The Speaker did his duty on the occasion with firmness and impartiality. He laid down the rule for the restriction of the debate to the bare question whether the subject was within the range of one or the other Committee proposed, and strictly enforced it. It would be tedious to go through the point of discussion, restricted as they were to the rules and usages of the House. But each member who spoke contrived to infuse into his remarks much of the party feeling which the occasion elicited. The previous question was at length ordered, and the motion to refer the Message and documents to the committee on Ways and Means was carried—the vote being ayes 107, nays 106.

Wednesday, Feb. 5.—Both Houses were occupied on the removal of the Deposites, &c. Mr. Webster from the Senate Committee on Finance made a Report upon the Letter from the Secretary of the Treasury, assigning to Congress his reasons for removing the deposits. The reading of the report occupied an hour and a quarter. A motion was made and carried to print an extra number of copies of this Report.

In the House, a determination has been intimated to press the debate to a termination on Thursday, which of course can only be effected but by a resort to the Previous Question.

Extract from our Correspondent, dated Washington, Feb. 4, 1834:—

"Mr. Clay, this morning, was quite in a transport of rage, on the reading of the President's message, and the opinion of the Attorney General accompanying it—relating to the conduct of the bank in withholding the Pension documents, &c. The honorable Senator started up, and sticking his head out, like a mad horse, said he had ceased to be surprised at anything that came from the President—and ceased to have any respect for the opinions of his cabinet. Doubtless they might return the compliment to him, if they could condescend to stoop to such degradation—but neither self-respect, nor respect for public opinion, would permit them thus to dishonor themselves and their station."

REIS EFFENDI.

Naude Lang must be near his end, for he is saying his prayers—hear him—better late than never:

"In the Senate noble exertions are making to restore confidence, and save the Union. May God, in his infinite mercy, rescue us from the ways of wickedness and misguided policy."

A letter from Washington to the New York Standard, says:—

"Mr. Biddle says, I understand, that if they cannot get a vote favorable to the Bank from the House of Representatives, the discussion shall be continued until March! Letters are here from some of the directors, threatening, that if justice is not done to the Bank, the State banks and mercantile community shall suffer for it. Mr. Webster, in his speech yesterday, said the government ought to have considered whether they would not incur the hostility of the Bank, by removing the deposits! In the mean time the Bank has recommenced its oppressions. They mean to see what more they can do by terror and by force. If the result be not to make them more odious and hateful than ever, I mistake the character of the American people."

Scarcely a day passes in which the President does not receive anonymous letters, threatening him with assassination if the deposits are not restored. He generally reads and throws them into the fire without a remark. To some of his friends he made an observation a few days ago in reference to them, which is worthy of the heroic age. Said he—

"I know not what can compensate a public man for neglecting to perform a conscientious duty—but I am sure it is not the addition of a few years to an old man's life."

On with the State Banks!—The United States Bank papers, in anticipation of a recharter of the Mammoth, have already commenced the cry of extermination against the State Banks. A Missouri paper has declared State Banks to be unconstitutional—and quotes that portion of this instrument which says that no State shall emit bills of credit, to sustain the correctness of its assertion.

This clearly proves what Mr. Grundy said in concluding his speech upon the removal of the deposits:—

"The question has come to this—whether the people shall be free and the Government shall rule, or whether a mere creature of the Government shall rule it, and thus make the people splendid slaves."

The U. S. Bank in Pennsylvania.—Mr. Perkin, from the committee of the State Senate, to which were referred the various memorials, &c. from Philadelphia relative to the deposits and the United States Bank, has made a report on those subjects, concluding with resolutions, that the Bank of the United States ought not to be rechartered, and that the deposits ought not to be restored to that institution.

The Albany Argus says, "we regret to learn that owing to the factitious pressure upon the money market, produced by the unprincipled course of the U. S. Bank, Benjamin Knower, Esq. of this city, has been compelled to suspend the payment of his debts for a short period. Mr. K. was engaged in the most extensive transactions—and concerns of such magnitude will require some little time to adjust; but we are authorized to say, with the utmost confidence to all his friends and the business community generally, that he will be able ultimately not only to meet every demand against him, but to save to himself a very large estate."

In the Legislatures of Mississippi, Alabama and North Carolina, resolutions were introduced in favor of re-chartering the Bank of the United States—but they have all adjourned, leaving them upon their tables.

The New York Mirror.—Our friend Morris is not only a good writer himself, but, if we may judge from his columns, the cause of good writing in others. He not only exhibits, but he elicits, talents. Such a man is a public benefactor—and, as one of the public, we take this opportunity to return him our thanks—for, alas, in these times of pressure, we are poor in all but thanks, and pay in no other currency. The Mirror of the first of February, which is now before us, is made up entirely of rich original contributions from such writers as Verplanck, Paulding, Bryant, Willis, Power, Leggett, Dunlap, and several others of equal repute. The music is also original, and very choice. And all this array of literary talent is embellished with a costly steel engraving, by Smillie, from an original painting by Wier, representing the Lunatic Asylum in New York. We commend this paper to the public as truly meriting favor.

A Minister's Watch on Deck.—A French gold repeating watch was taken from the pocket of the Rev. Mr. Bayard, on board the steambote Cinderella, the day before yesterday, while she was on her passage to Elizabethtown.

Mr. Kemble's Benefit is advertised to take place this evening. Mr. and Miss K. will appear in the "Point of Honor," and the "Day after the Wedding." The afterpiece—"My Neighbor's Wife"—recently brought out at the Tremont, is a very clever thing, in which Smith, Andrews, and Johnson shine—the two latter, it is true, only through a gauze screen.

For the Boston Morning Post.

Mr. Greene—Your remarks upon the subject of Imprisonment for Debt, have been read with great interest.

I have had an opportunity to witness the effects of this vile law, the recollections of which are indeed heart sickening. Among the large number of persons now confined in Boston Jail for debt, there is one, who was lodged there about six months ago, for a small bill, who shortly afterwards became insane—and notwithstanding this dreadful malady, is still kept there, a miserable object to behold!!

Will the philanthropists of our Legislature look upon these things with folded arms.

W.

W. I. Trade.—Mr. Shepley presented in the Senate of the United States, on the 22d ult., a statement with regard to the W. I. Trade, which shows the view taken by Mr. Sprague and the opposition generally, to be altogether deceptive. It shows that since the arrangement, our commerce with the British West Indies has been increased from less than two hundred thousand dollars, to more than eight hundred thousand dollars—and also that the comparative increase of British tonnage, shown from the table presented by Mr. Sprague, is not owing to any gain on the part of the British in the carrying trade, but to a cause altogether different, arising from the mere manner in which the trade is conducted.

## POLICE COURT.

[Saturday.]

Charles Diggins, in reply to a complaint, charging him with getting drunk, and beating his wife, said—"I don't think I did anything out of the way to her." The watch stated that he was in the habit of coming home, as drunk as a cow—and on Friday evening, assaulted his wife till she cried out murder, and that they had to send for the priest to exorcise the fiend that was raging in him. It is well known to the faithful, that the power to cast out evil spirits, was expressly delegated to the Apostles, and by them transmitted to their successors in a right line, to be held and enjoyed by them forever. But then that power was confined to those evil spirits in existence at that time; and not to those, which might be created to accommodate the increasing wants of a more advanced state of civilization. The most potent of these "fiends incarnadine," ycleped New England, is generally considered to be under the exclusive control of the Temperance Society, and as that worthy fraternity are indebted to the existence of his liquid majesty for all their importance—their presidencies, secretaryships, and managerial boards, for the home and foreign departments—it is not to be expected that they will adopt any real measures to destroy, or even to expel him from his dominions; and as he was not subject to the church, so neither did he desire to conciliate it, in order to take advantage of the benefit of clergy, and the pious "presto" of the priest was, therefore, powerless on Diggins. The demon laughed at his spells, and, like Daniel O'Rourke, swore—"The more you will, the more I want, so I will."

His lady also swore large against him, but Diggins summed up her testimony compendiously and laconically, by saying, simply—"That's all a d—d lie; and it is not the first one either."

Court—What have you to say?  
Diggins—I don't see any use 'twould be to speak—I don't hurt any body but myself.

Court—Let him go to the House of Correction for one month.

Diggins—(with a knowing wink)—Thank ye, Sir—that's not much any how.

Mary Connelly was charged with being dangerous and disorderly.

Clerk—"Guilty or not guilty?"

Mary—I was never guilty of any undecentness, nor anything purtier in my life; for I always behaves myself decent-like and jontel.

Witness—You have been intoxicated four times within the last six months, and on Friday night ye stripped yourself, and wanted to fight with two young ladies, and cried murder when the men came to dress ye, and carry you to the watch house.

Mary—Och me, now—can ye say so? I never was the worse for drink but that once, and once before, and another time.

Court—Let her recognize in the sum of \$30 to keep the peace, and pay the costs.

Mary—I don't know as I understand what ye'd be up to by that same cognosing—but I'll agree to pay \$30, if ye ever catch me in court again.

The complainant, having discharged his duty to the Commonwealth, as well as his own bile, "experienced a change of heart," and went to her home, to raise the rhino, to pay the costs of prosecution.

Arthur Conway (alias Ericin) was brought up for stealing a gold ring, and a bead bag, from the house of Thomas C. Gould, where he boarded. He also broke open a trunk, belonging to a fellow-boarder, and stole clothing to the value of \$15. On Wednesday night, the night preceding the robbery, Mr. G. and his wife rather hesitated to accept an invitation to a cotillion party; but Conway thought it would be the best thing they could do, and so they went, leaving him to take care of the house. In the morning, the robbery of the trunk was discovered, but he averted suspicion from himself by saying, "I hope you don't suspect me." He was, however, dunned for his board, and immediately withdrew his patronage from the house. After his disappearance, the ring and purse were missed, and it was ascertained, on Thursday, that he had presented the ring, as a token of his affection, to another man's wife, in East Cambridge. Mr. Gould overhauled him on Thursday afternoon, on his way to the Point, where he was probably bound on a Platonic visit, and to put the weaver of the ring in mind of the giver. A part of the stolen clothes were found in his bundle, together with a pair of ladies' stockings, which discloses another instance of his partiality for the sex. He said a lady gave them to him, as a keepsake. Committed for trial at the Municipal Court.

Hugh O'Conner (alias Riley) entered Gibson's store, and after pricing a number of articles, went out without making any purchase—and shortly afterwards, six fox, and three raccoon skins were missed. In about half an hour, O'Conner returned, and upon discovering some loose fur upon his clothes, they asked him if "he dealt in fur." He replied "No." They then sent for Constable Clapp, who, upon searching him, also found a pocket handkerchief, completely covered with fur, as if it had contained a bundle of skins.—He gave no satisfactory explanation of the hairy mystery, and was, of course, committed for trial at the Municipal Court.

William Brown, being full of rum and fight on Friday evening, was carried to the watch house, where the watchmen indulged their impertinent curiosity, by examining his bundle, in which they found a butcher's frock, and a pair of ladies' drawers. Now as Brown admitted he was not to "the butchering bread," and as the drawers, also, were rather too small to fit his nether man, they began to inquire who they might fit, and an individual was soon found, who identified them as having been stolen from a clothes line, a month ago. It was then ascertained that the comfortable topcoat he had on his broad, brawny back, was the property of a teamster, and had been stolen from a stable on the 13th of November. Brown disclaimed to make any reply to these charges, and was committed for trial at the Municipal Court.

Why is a Boz round a lady's neck like a bureau? Because it is Fur-nigh-to-her—Furniture.

## MASSACHUSETTS LEGISLATURE.

Saturday, Feb. 8.—In the Senate, leave to withdraw was reported on Petition of Boston and Providence Rail Road Corporation. Past, and sent down, Bills authorizing Wharf in Troy; to inc. 1st Lib. Cong. Soc. in W. Boylston, 1st Unitarian Society in Boylston, and Female Auxiliary Bible Society. Ordered, on motion of Mr. Shattuck, that Com. on Judiciary consider expediency of defining in certain cases the descent of real estate by will, to effect more fully the intent of the testator. The Resolves on the Currency were taken up, and, after an amendment of the amendment of Mr. Wells, again laid on the table.

In the House, Petitions committed—of B. Parker and 231 others, to build Bridge over Merrimac River; J. Baldwin in behalf of B. Baldwin, that said B. may be exonerated from payment of money, due by him to the State; and A. Bartlett and 154 others of Medford, for repeal of all laws authorizing sale of ardent spirits. Committee on Judiciary were ordered to consider expediency of repealing the Act of 1787, ch. 54, entitled "an Act for suppressing and punishing rogues and beggars." Messrs Wetmore, Curtis and Morse were appointed Committee to consider expediency of authorizing Mayor and Aldermen of Boston to extend Front street toward Roxbury. Committee reported Bill to enlarge powers and duties of County Commissioners. Adjourned.

The Hon. John Hamm, Charge d'Affaires from the United States to the republic of Chili, arrived at Norfolk on Saturday last in the brig Lady Adams, after the short passage of 70 days from Valparaiso, via Coquimbo. He is the bearer of a treaty of commerce, ratified some time ago between the United States and the Government of Chili. Senor Don Manuel Carvalle, the Chilean Envoy, is also a passenger in the Lady Adams, and will proceed to Washington with Mr. Hamm, for the purpose of laying the whole before our government, he being the bearer of the Treaty and Convention in the Spanish Language.—N. Y. Standard.

We learn from a gentleman from Havana, that he saw letters from Madrid, that said that the Mexican Government had notified, they would declare war against Spain unless their independence was acknowledged by her.—The last account from Don Miguel was, that he had fled to the mountains, and that his cause was hopeless. The same gentleman also states, that the oath of allegiance to the young Queen Isabella, would be taken at Havana on the 8th inst.—Ibid.

The establishment of the Queen on the throne of Spain secures the triumph of the Liberals in Portugal, and thus the whole of Western Europe, from the Mediterranean to the Frozen Sea, is arrayed on the side of constitutional liberty, and in the "great war of principle," if ever it shall come, will present an unbroken phalanx against the despotic powers of the East and North.—N. York Post.

Most of the kings of Europe, and a part of those of Asia and Africa, may be said to be in a state of tutelage, or paternal guardianship to the modern holy alliance. England has under her wing Portugal and India; France has Egypt, Belgium, Spain and Algiers; Austria takes Italy and Lombardy, and most of the German duchies and principalities; Russia has Turkey and Greece and Poland and Prussia and Holland—add also Sweden and Denmark!

Lorenzo Dow, the well known itinerant preacher, died at Georgetown on the 2d inst. He was a native of Coventry, in Connecticut. He had travelled extensively in England and Ireland, and there were few places in the United States which he did not visit. He preached in public for more than thirty years, and was a Methodist by profession, though he did not act in connexion with that sect.—N. Y. Standard.

A good Customer.—A few days since, a gentleman of the town bought a quantity of jewelry, for which he gave in payment a counterfeit bank note. The jeweller, happening soon after to discover the fraud, gave chase, and after much exertion succeeded in overtaking his worthy customer. Our hero, having some conscientious scruples about being brought to bay in the public street, very unceremoniously knocked down his pursuer, and made off—Ibid.

Death by Hydrophobia.—Mr. Abraham Deidendorff, formerly a merchant of Otesgo county, New York, perished a few days since, a victim to that most terrible of all diseases, hydrophobia. He was bitten by a rabid animal twelve days previous to his death, and expired in the most excruciating agonies, notwithstanding all proper means were resorted to for his relief.

The steambote Georgian, which left Apalachicola on the 23d of December, for Columbus, with merchandise, struck a snag under her harbor bow, when within sixty miles of her destination. By the exertions of the captain she was kept afloat for about an hour, when she was abandoned, and soon after filled. The amount of the merchandise is calculated at about \$50,000.

Melancholy.—We learn from the New Berlin Times, that on the night of the 24th ult. two dwellings in Adamsburg, Union county, Pa. were consumed by fire. One of them was occupied by a Mr. Hall, who, in attempting to rescue his child from the flames, perished with his offspring in his arms.

A curious case.—A petition for divorce is now before the Legislature of Maine, from a husband, whose wife had forsaken him, scarce the honeymoon was over, she assigned no cause, merely stating she never could be happy with him, although he had treated her with the utmost kindness.

A negro servant, somewhat given to "words of learned length and thundering sound," lately brought some beef's tongue to the table of one of our friends, who inquired of Cuffy what he called it. "Why Massa," says the darkee, "dat be lingua."

A man named Shrader, of Henry county, Ky., after a drunken debauch, killed three of his children, and so shockingly abused his wife that she is not expected to recover.

Nine deaths by small pox occurred in Philadelphia last week.

Compliment to Editors.—A Western man who has just come into the trade commences his salutatory as follows:—

"It may, perhaps, amuse some of the fraternity of the type and quill, to hear a brother craft in these degenerate times, descant upon truth and conscience—but let it be observed, that he is yet unbacked in the ways of political controversy, and has acquired but a small portion of editorial slang. It may be in all simplicity, that he believes virtue to be something more than a name, and avows his intention to be pure—that he will speak the truth alone, and attempt not, at least knowingly, to deceive or lead astray any—even the most glib of his readers."

Why is a Boz round a lady's neck like a bureau? Because it is Fur-nigh-to-her—Furniture.

## PHRENOLOGICAL LECTURES.

The subscriber proposes to deliver a popular course of Lectures on this new and interesting science, at the Masonic Temple. The course will consist of six Lectures, and will be illustrated by such paintings, skulls, casts, and other apparatus as are necessary to show the structure and functions of the Brain, and their several phrenological divisions. The lectures will be given on Friday and Tuesday evenings, and the first will be on TUESDAY EVENING, the 11th Feb. at 7 o'clock. The subject—"The Anatomy of the Brain and the Cranium."—Tickets for the course, \$1 for a single person, \$1.50 for a double ticket, admitting a lady and gentleman. Tickets for a single lecture 25 cents. Tickets for sale at the Bookstores of Munroe & Francis, Lilly, Wait & Co. and Marsh, Capen & Lyon, and at the door. feb 5 WM. B. FOWLE.

PORTRAIT PAINTING.—At No 3 State street, opposite the Post Office—south side. Likenesses warranted perfect—likenesses taken from corpses—prices moderate. 31is

## MARRIED.

In Lowell, Mr Ansel Tucker to Miss Mary M. Beveridge.  
In Hingham, Mr Henry Nye to Miss Lucy Sargent, of Gloucester.  
In Hyannis, Capt John Baker to Mary Howland, daughter of Zenas D. Bassett, Esq.  
In Oosterville, James N. Lovell to Lucinda Hinkley.

## DIED.

In this city, on Saturday evening, Robert Lilly, Esq., of the firm of Lilly, Wait & Co., aged 52.  
The funeral will take place this afternoon at 3 o'clock, from Mrs Bancroft's boarding house, No 2, Central Court.  
In Northampton, Mrs Sarah Ann Lyman, aged 80.  
In Sandwich, Mr Samuel Fessenden, 81.  
In South Hadley, Miss Mary Smith, 79.  
In Amherst, Miss Emily Beldwood, 36.  
In Nantucket, Capt Solomon Coffin, 84.  
In Northbridge, Abner Adams, 76.  
In Hubbardston, Abiel Murdock, 90.  
In Millbury, Mrs Elizabeth, relict of the late Joseph Tainer, 74.  
In Foster, R. I., Dr Solomon Crown, 81.  
In New Orleans, Capt John Congdon, of R. I.—master of brig Charles F. Thompson.  
In Hawkesbury, U. C., Dudley Griffin, 80—he fought at the battle of Buaker Hill, and was the last man that left the intrenchments.

## IMPORTATIONS.

TOBACCO.—Schooner Jane—2550 quils Logwood.

Sch Eagle, Thompson, Wiscasset.  
Sch Jane, Pendleton, Tobacco 29th Dec. Left sch Eliza Huffer, Otis, bound up; Sarah, for New Orleans. Left, 1st 43, Ion 83 15, brig Sophia, Philad, for New Orleans.  
Sch Potomac, Bearse, Alexandria, via Salem.  
Sloop Satellite, Card, Dover.

The owners of ship Fredonian, (which put into New York in distress on her passage from Liverpool to Boston) write as follows under date of 5th inst.  
"We shall be obliged to discharge the cargo, which is considerably damaged, as a part of it is very much so. It will probably take several weeks at this season of the year to put the ship in order; some packages of the dry goods are very much damaged, and it will no doubt be to the interest of the owners of them to have them attended to immediately. The sack salt is likewise damaged very badly."

At Havana, 21st ult, brig Eagle, Massury, hence, just ar; Norma, Baker, for Boston, unc; sch Pocahontas, Black, hence, ar, 10th. Sailed 19th, brig Baltimore, Hathaway, Boston.

BATH, 5th—sailed ship Mount Zion, Swanton, New Orleans.

NEW YORK, Feb. 5.—arr brig Lucy, Morrell, Matanzas, 20th Jan. Sailed in co with Atlas, for Boston.—The brig Oscar, Knight, from Portland, 18th, having sailed in co with brig United States, for Cuba, a few days out fell in with her—in coming out of Portland she struck on Alden's Rock, knocked off her rudder and caused her to leak—she was full of water when fallen in with—took off the officers and crew. The Capt and officers, and a part of the crew, were rescued, and the crew put on board the brig Moro, on the Banks, from Portland, for Havana—nothing was saved from the wreck.

Sch Olive Branch, Cooper, Para, 27. Left brig Amethyst, for Salem.

Cleared ship John & Elizabeth, Churchill, Dublin; barque Paoli, Rainey, do, Penzance; brigs Elizabeth, Briggs, Madeira; Hannah & Mary, Thompson, Aux Cayes; Tilton, Patrick, Boston.

6th—arr ship Moro Castle Flattery, Havana, 14 ds.

Ship Matilda, Ellerson, Apalachicola. Spoke 23d ult. off Pan Matanzas, brig Dover, Boston, for New Orleans.

Brig Van Warren, Gorham, Vera Cruz, Jan 10. 29th, in 1st 31, 40, 78, saw ship Plateau, do, Boston.

## INDIGESTION, JAUNDICE AND BILIOUS COMPLAINTS.

**ANDERSON'S VEGETABLE PILLS.** For Indigestion, Jaundice and Bilious Complaints, weakness of the Stomach, and Constipation, loss of appetite, nervous complaints, headache, sour stomach, flatulence and habitus coarctatus.

This medicine is composed entirely of vegetable substances, perfectly safe in its operation, and may be given to children, and persons of the most delicate habit without the least risk of inconvenience.

The uniform success which has attended the use of it where it has been extensively used, in Boston and various other parts of the United States, and in the West Indies, attested by disinterested and highly respectable persons, affords, next to a trial of the medicine itself, the best commentary upon its virtues, and the best recommendation which can be offered to those who are unacquainted with it.

Extract of a letter received from a gentleman in Boston, who had suffered severely from Indigestion for three years. "During this time I suffered very much from mental depression, constant pain in the head and breast, and a general feeling of uneasiness, and the whole system—the food that I ate seemed to pass into my lungs and there remain, giving me great pain at the end of a strong degree of heat. At times I suffered so much from the pain of indigestion as to be confined to the bed for two or three days. During one of these most severe attacks, I was induced by the advice of a friend to try your Vegetable Medicine. The course of a few weeks I found myself much better, and by the time I had taken two bottles, considered myself wholly free from the complaint. I continue, on the least feeling of anything like indigestion or pressure on the stomach, to take about a tablespoonful of it which, in the course of a few hours, completely restores me. It has had with me a very wonderful effect in strengthening the stomach and invigorating the whole system, and judging by my own case I consider it in all diseases connected with the digestive organs to be a very valuable medicine.

It is put up in large bottles containing a pound and a half; and sold at seventy-five cents each, by Jonathan P. Hall, Jr., No. 1, Union Street, Boston. Also, by J. W. Ware, No. 1, Union Street, Boston. By J. W. Ware, No. 1, Union Street, Boston. By J. W. Ware, No. 1, Union Street, Boston. By J. W. Ware, No. 1, Union Street, Boston.

## BROWN'S SELF-INJECTING INDIA RUBBER INSTRUMENT.

By which removes costiveness and many of its consequent complaints, by the use of warm water only. The instrument is put up in a small pocket book, which may be carried in the vest pocket. It is so simple and portable an article, that its use is decidedly more pleasant than most of the instruments now in use; it has no piston or valve, or any of the complicated contrivance which causes the common instrument to get out of repair. It may be used by any person alone with the greatest ease, and it can be administered to patients lying in the bed, or in the bath. It is so simple and portable an article, that its use is decidedly more pleasant than most of the instruments now in use; it has no piston or valve, or any of the complicated contrivance which causes the common instrument to get out of repair. It may be used by any person alone with the greatest ease, and it can be administered to patients lying in the bed, or in the bath. It is so simple and portable an article, that its use is decidedly more pleasant than most of the instruments now in use; it has no piston or valve, or any of the complicated contrivance which causes the common instrument to get out of repair. It may be used by any person alone with the greatest ease, and it can be administered to patients lying in the bed, or in the bath.

Having employed Mr. William Brown's Self-Injecting India Rubber Apparatus, both in private practice and in the Massachusetts General Hospital, I can recommend it as well calculated to answer the purpose for which it is intended; while it is at least as effective as the common instrument now in use, it possesses the advantages of being so simple and portable, and of more simple construction, and consequently more easily kept in order, and of being afforded at a much less price.

GEORGE HAYWARD,  
Jun. Surg. of the Mass. Gen. Hospital.

April 18th, 1833.

I concur in the opinion expressed above by Dr. Hayward.

JOHN WARE,  
U. S. Marine Hospital, April 18th, 1833.

Mr. Brown—The domestic instrument I received of you, I find upon a thorough trial to answer the expectations I had previously formed of it. Its simplicity of construction, its portability, its ease with which it may be administered by its means, have induced me to employ the instrument in my institution to the exclusion of all others formerly in use.

C. H. STEDMAN,  
Phys. and Surg. U. S. M. H.

The following Physicians hereby certify that we have in our practice, used Wm. Brown's Self-Injecting India Rubber Instrument, and find it as simple, comfortable and effective an article of the kind as we have ever known; we have, therefore, no hesitation in pronouncing it to be a valuable instrument, and recommend it for general use:—

Marshall S. Perry, John D. Fisher, Samuel C. Howe, John Homans J. G. Stevenson, Joshua B. Flint, Boston.

Charles M. Smith, Surgeon of the Massachusetts General Hospital, Boston, April 16th, 1833.

To be had at wholesale of the proprietor, WILLIAM BROWN, 481 Washington street; Henshaw & Co., India street, P. S. & N. Carthage, head of Long wharf. Retailers by J. K. Smith, Brewer & Brothers, Washington street; J. Kidder, Court street; James Fowle, Green street; E. Wight, Milk street; likewise, by most of the other Druggists throughout the United States.

## MARSHALL'S CONCENTRATED COMPOUND SYRUP OF SARSAPARILLA.

For the cure of Obsolete Eruptions of the Skin, Pimples or Pustules on the Face, Blisters which arise from an impure habit, or any other eruptions, Pains in the bones, Chronic Rheumatism, Tetters, or the Scall, or the Evil, White Swellings, syphilitic Symptoms, and all disorders arising from an impure state of the blood, produced either by a long residence in a hot and unhealthy climate, the injudicious use of mercury, &c.

It has been a desideratum with Physicians and Patients, to obtain a more powerful and more agreeable preparation of the Compound Syrup of Sarsaparilla, in a convenient and portable form. Since Dr. H. C. Marshall's publication in the London Medical Botanical Transactions, and Mr. Hodgson's recent Paper in the Journal of the Philadelphia College of Pharmacy—denying the efficacy, and asserting the inertness of any Decoctions, Syrups, or Compound Fluid Extracts made by long and tedious processes, and the necessity of preparing a Concentrated Compound Syrup of Sarsaparilla, by a process peculiar to himself, and, aided by a powerful hydraulic press, have succeeded in obtaining a more efficient and active preparation than has ever heretofore been manufactured.

This very superior and active Syrup is now with confidence offered to the Medical Profession and the public, as possessing in an eminent degree all the active properties of the Sarsaparilla in its most concentrated form.

One pint of the Syrup thus prepared contains the active principle of two pounds of Sarsaparilla. One fluid ounce is equal to the decoction of the decoction of the London Pharmacopoeia or the Lisbon Diet Drink.

This article possesses an agreeable and pleasant flavor—and the most delicate and fastidious stomach will bear it conveniently.

Price \$1—For sale by LOWE & REED, No 24, Merchants Row.

## POSITIVE, OR NO PAY.

MRS. HILL'S COUGH DROPS, OR VEGETABLE HEALTH RESTORATIVE.

Prepared entirely from Vegetables.

MORE than forty years have now elapsed, since the receipt was given me by my grandfather, a celebrated Physician, at a time that I was troubled with a very bad Cough and Cold. After taking one dose, I found immediate relief, and a few doses cured me entirely; the effects were astonishing quick, and the numerous instances of the wonderful efficacy of these drops in the hands of different people, has induced me to put them up in this form, with directions, under the impression I would be a public benefit. And as it is my sole aim—and to convince the public that it is, and as a sure guarantee against quackery and deception, I authorize my agents to return the money to all those that do not get relief by their returning the bottle and directions. This article is sold by all the Druggists, and is particularly of those numerous and complicated disorders arising from neglected colds, is amply attested by the acknowledged approbation of those who are now restored to perfect health, as well as many in the decline of life who frankly acknowledge having received great relief from the use of them in the following diseases, viz:—Coughs, Colds, Asthma, Spasms, Hoarseness, Whooping Cough, Difficulty of Breathing, Influenza, Quins, Phthisis, Croup, and all disorders arising from colds. Price 37 1/2 cents per bottle.

For sale wholesale and retail, by J. P. Hall, Jr., sole agent, No. 1, Union street, corner of Elm street; Asa Hill, Boyden, Hancock street; Charles Holbrook, Leverett street; E. S. Holden, corner of Beacon and Chs streets; A. Geyer, Hanover st.; John White, Jr., School st.

Also, retailed by most of the Apothecaries and country stores throughout the country.

## COMPOUND VEGETABLE SYSTEM-ATIC PILLS.

**PREPARED BY A. STEWART.** Which under the divine blessing have been the means of restoring to health and activity many persons suffering various diseases, completely given over by Physicians.

1. **Strong Cathartic or Purgative Pills.**—They are useful in almost every complaint where Cathartics are necessary, and they are perfectly safe in their operation, and it is necessary to clear the Prime Vias or Stomach and Bowels of its superfluous matter and to prepare for the use of the other Pills as recommended for the complaint. They are a certain and immediate remedy for the Tenebris or Worms and all sudden attacks of Bilious and Colic complaints. These Pills do not interfere with the ordinary occupations of the patient.

2. **Mild Cathartic and Aperient Pills.**—These Pills are recommended in most cases after a few doses of No. 1. They are a certain remedy for Indigestion, Dyspepsia, Jaundice and all Bilious complaints, loss of appetite, Headache and Piles.

3. **Mild Aperient, Deobstruent or Female Pills.**—These Pills are recommended in almost all complaints which Females are subject to, such as obstructions of customary evacuations and all nervous affections, sick Headache, pains and palpitation of the heart and breast, Weakness, Debility, Dyspepsia, Flatulency, Costiveness, Inflammations, Strangury, and indeed all complaints incident to the human system, and are perfectly safe in their operation, and it is necessary to clear the Prime Vias or Stomach and Bowels of its superfluous matter and to prepare for the use of the other Pills as recommended for the complaint. They are a certain and immediate remedy for the Tenebris or Worms and all sudden attacks of Bilious and Colic complaints. These Pills do not interfere with the ordinary occupations of the patient.

4. **Ulcera, Consumption, Alternative Pills.**—These Pills are recommended for Consumptive complaints in all their different stages, and may be taken with perfect safety; they act altogether as an alternative. The same kind of Pills have twice saved my life in consumption, when every thing was prepared for my funeral except the coffin; to these and to Pill No. 1, I owe my present wonderful recovery from a Consumption, which was accompanied with ulcers of the Phagadenic nature, which for nearly 9 years bid defiance to the first Physicians in Massachusetts and New York, and was pronounced by them incurable. The Pills are pure vegetable, but act very powerfully on the system without producing any dangerous or disagreeable effects. Used with great success in Herpes, Eczema and Phagadenic Ulcers or Erysipelas, Scrofula and Calous cutis Ulcers, &c.

5. **Rheumatic Pills.**—These operate by stool, urine, perspiration and as a general alternative. Rheumatism is often accompanied with pains in various parts of the body, and other diseases such as Scrofula, Scurvy, White Swelling, Gout, Syphilis. Where nothing is to be feared, these Pills are useful in the system or in other words mingled with the juices of the body, whether from a hereditary taint, or some imprudence in youth, and as it is well known, or ought to be known, that there is but one certain cure for this complaint whatever pretenders and quacks may tell you, thousands in a confirmed state, lurking in the system or in other words mingled with the juices of the body, whether from a hereditary taint, or some imprudence in youth, and as it is well known, or ought to be known, that there is but one certain cure for this complaint whatever pretenders and quacks may tell you, thousands in a confirmed state, lurking in the system or in other words mingled with the juices of the body, whether from a hereditary taint, or some imprudence in youth, and as it is well known, or ought to be known, that there is but one certain cure for this complaint whatever pretenders and quacks may tell you, thousands in a confirmed state, lurking in the system or in other words mingled with the juices of the body, whether from a hereditary taint, or some imprudence in youth, and as it is well known, or ought to be known, that
